PC: Patient Care; MK: Medical Knowledge; PBLI: Practice Based Learning and Improvement; SBP: Systems Based Practice; C: Interpersonal and Communications Skills; P: Professionalism

Rev 6/2012
### Objectives

**Rotation: Obstetrics**  
**PGY: 4**

| Perform procedures in Appendix B | MK, PC, SBP | Clinical teaching 1 minute preceptor | Global assessment S-FAC |

PC: Patient Care; MK: Medical Knowledge; PBLI: Practice Based Learning and Improvement; SBP: Systems Based Practice; C: Interpersonal and Communications Skills; P: Professionalism
Objectives

Rotation: Obstetrics

Appendix A

- Dilation and evacuation for second-trimester fetal death
- Fetal assessment, intrapartum - Fetal scalp pH determination
- Ultrasound examinations - Three-dimensional
- Vaginal delivery, breech - Application of forceps to the after-coming head
- Vaginal delivery, breech - Assisted
- Vaginal delivery, breech - Spontaneous
- Vaginal delivery, breech - Total breech extraction
Objectives

Rotation: Obstetrics

Appendix B

Amniocentesis - Maturity assessment
Amnioinfusion
Amniotomy
Anesthetics/analgesics - Adm. of narcotic antagonists
Anesthetics/analgesics - Adm. of parenteral analgesics/sedatives
Cardiopulmonary resuscitation - Airway maintenance
Cardiopulmonary resuscitation - Bag and mask ventilation
Cardiopulmonary resuscitation - Chest compressions
Cervical cerclage - Transabdominal
Cervical cerclage - Transvaginal
Cesarean delivery - Low transverse
Cesarean delivery - Low vertical
Cesarean hysterectomy
Cesarean, delivery - Classical
Circumcision, neonatal (with anesthesia)
Curettage for adherent placenta
Episiotomy and repair - Episioproctotomy
Episiotomy and repair - Mediolateral
Episiotomy and repair - Midline
Fetal assessment, antepartum - Biophysical profile
Fetal assessment, antepartum - Contraction stress test
Fetal assessment, antepartum - Nonstress test
Fetal assessment, antepartum - Vibroacoustic stimulation
Fetal assessment, intrapartum - Fetal heart rate monitoring (internal/external)
Fetal assessment, intrapartum - Fetal scalp stimulation test
Forceps delivery - Low Forceps delivery - Mid Forceps delivery - Outlet
Hematoma evacuation - Intra-abdominal
Hematoma evacuation - Vaginal
Objectives

Rotation: Obstetrics

Hematoma evacuation - Vulvar
Hypogastric artery ligation
Induction of labor with prostaglandins or oxytocin
Manual removal of the placenta
Neonatal resuscitation, immediate
Repair of genital tract lacerations - Cervical
Repair of genital tract lacerations - Perineal
Repair of genital tract lacerations - Vaginal
Skin incision - Transverse
Skin incision - Vertical
Sterilization
Suction evacuation for first-trimester fetal death
Ultrasound examinations - Abdominal - screening
Ultrasound examinations - Color Doppler
Ultrasound examinations - Doppler velocimetry
Ultrasound examinations - Endovaginal
Uterine artery ligation
Vacuum extraction - Low
Vacuum extraction - Mid
Vacuum extraction - Outlet
Vaginal delivery, spontaneous
Version of breech, external
Wound care - Debridement
Wound care - Incision and drainage of abscess or hematoma
Wound care - Repair of dehiscence
Wound care - Secondary closure
