The University of South Alabama Regional Burn Center has provided specialized care to burn victims in south Alabama, northwest Florida, southern Mississippi and eastern Louisiana since its establishment in 1966. We treat patients whose burns are suffered as a result of industrial, residential, and recreational fires. Located at the USA Medical Center, a Level I Trauma Center in Mobile, we are the only facility in the region that provides comprehensive burn care from injury through recovery. The Burn Center admits on average over 500 adult burn patients per year.

USA employs a multi-disciplinary approach to burn treatment, and the Burn Center team includes physicians, surgeons, nurses, social workers, dietitians, and physical, occupational, and respiratory therapists. We gained national and international recognition for our contributions to the art and science of burn treatment, most notably in the use of artificial skin. We also provide basic and continuing education in burn care to medical students, residents, and fellows in a variety of specialties. We train nursing students, physical and occupational therapy students, dietitians, social workers, and case managers who provide care and services to burn victims.

We are an established community resource providing burn patient care, research, education, prevention programs, and training for southern Alabama and the Gulf Coast region. The University of South Alabama Burn Center is a proud and leading member of the small network of burn centers throughout the United States.
Dear Friends of the USA Burn Center:

The USA Burn Center is proud of our association with the Alabama Fire Sprinkler Association (AFSA) and we are pleased to announce the 20th Annual Tony Bice Memorial Burn Center Golf Invitational sponsored by AFSA. Proceeds from this popular tournament benefit the three burn centers in Alabama. This year’s event will be held at Pine Tree Country Club in Birmingham, AL on May 6, 2013.

Since 2005 USA’s Burn Center has been one of the beneficiaries of this charitable event. As a result we’ve received over $110,000 in vitally needed funds that have directly benefited the burn victims that we treat. The funds have allowed us to purchase six specialized beds that enable us to provide a superior level of quality care to our intensive care patients, two total lift chairs that assist the nurses to get patients out of bed, which speeds up the patients recovery process, twenty-four flat screen TVs for patient rooms, sleeper sofas for patient rooms, and two fluid warmers. In addition, many doctors and nurses have attended educational programs to learn the latest in technological advancements, research, and emotional and rehabilitative aspects of burn care for burn patients.

Every two seconds a fire occurs. Every 21 seconds someone is burned. We ask that you help the Alabama Fire Sprinkler Association to continue to support the burn centers by becoming one of our golfers or sponsors. Funds raised from golfers and sponsors using this brochure will support the USA Burn Center. Just complete the sponsorship and/or golfer reply form(s) and return it as soon as possible.

Your support will be greatly appreciated!

Sincerely,

Arnold Luterman, M.D.  Salil Gulati, MD
Amin Frotan, MD   Juvonda Hodge, MD
